EV3 & SWIFT: GETTING STARTED
Objectives

- Learn how to install Swift Playgrounds on your iPad
- Learn how to pair the App with your EV3
Installing Swift Playgrounds

Install the Swift Playgrounds App from the App Store

Launch the App
And click on the "+"

Install “EV3 Animal Rescue” and “EV3 Template”
Pair with your EV3 – Part 1

In the Settings Tab on the Brick, select Bluetooth and then make sure that Visibility, iPhone/iPad and Bluetooth are all set.

In either EV3 Playground, click on “Connect EV3 Brick”.

Select EV3 brick you want to pair to.
Click on “Pair”. *(Note the number indicated on the iPad does not appear on the EV3 brick.)*

Select the “check mark” to connect to your iPad

You will see a welcome screen showing EV3 motors & sensors. Attaching motors & sensors or moving them should update the screen in real-time.
