## All Aboard!

### Objectives:

- Coming to a consensus
- Working together in a small space

### Materials:

- A large towel or small blanket
- To start out, it must fit your entire team on it. You must be able to fold it.

### Setup:

- 1) Leave the towel/blanket in the middle of the floor fully open

### Instructions to Team:

You must fit your team on the blanket at all times. No one's feet should touch the floor. The blanket will be folded in half after each attempt.

### Notes:

This activity requires the students to be comfortable being very close to each other/ touch each other.

Every time the team succeeds at fitting on the blanket, tell them to get off and fold it in half.

During the activity, watch how the team strategized to fit on the blanket.
