Human Characters

Objectives:

- Learning to work together and coordinate

Materials:

- Team Members
- Floor Space

Instructions to Team:

- Create the word "FLL" with your body
- It does not matter whether you are standing or lying on the ground.
- More than one team member may be part of the same letter.

Notes:

What was the most difficult part of this challenge? How did team members make decisions or coordinate? Was there a discussion? What was the difference between making words vs. symbols vs. each person creating their own character?

Variations can include

- 1) Replace with any short word of symbol (e.g. smiley face)
- 2) Give a word with as many letters as team members so each person is only one letter.
